Basis for Interim Operations, 207C Pond and Clarifier

APR 1994

RECEIVED

Steve R. Keith, Program Director  
Solar Pond Project  
EG&G Rocky Flats, Inc.

The Rocky Flats Office, Environment, Safety and Health staff have completed a technical review of the subject document and concur with EG&G's hazards analysis. The Basis for Interim Operations of 207B, 207C, and the clarifier must be incorporated into the Final Safety Analysis Report for the 750/904 Pads.

Due to the fact that this is a Category III operation and will result in a reduction of risk to the public, RFO Environmental Restoration hereby grants approval for the Basis for Interim Operations for removal of pond sludge and clarifier solution by vacuum truck and storage in tanks on the 750 Pad.

If you have any further questions, please contact me at extension 7836
